

## SPECIFICATIONS

Power Requirements	DC5.0V to DC7.0V
Ground Type	Negative ground type
Power Consumption	0.57W (6V)
Output Image	Composite Video NTSC
Output Drive Capacity	1Vp-p (75 Ω)
Image Sensor	1/3.7 inch CMOS image sensor, aspect ratio 4:3
Effective Number of Pixels	640 (horizontal)×480 (vertical) approximately 0.3 Mega pixels
Lens Section	Focal length f=1.34mm, brightness F=1:2.0
Angle of Field	Horizontal: 131°, vertical: 103°
Automatic Image Adjusting Function	Automatic white balance adjustment
Water Resistance	IP67
S/N ratio	40.5db or more
Resolution (Horizontal)	330 TV lines (center area)
Illumination Range	Approximately 1.5 to 100klx
Operating Temperature Range	-22 to +158F (-30 to +70°C)
External dimensions (W×H×D)	23.6×23.6×24.0mm (excluding projection on the rear)
Weight	27g (including cord)
